Material	Steel
Lights	Yes
Engine power	2.5 kW
Length	1480 mm
Width	670 mm
Height	1470 mm
Battery capacity	320AH 24V
Weight	640 kg

The HortiTruck is a logistics tool designed for comfortable working when transporting carts and trolleys in a greenhouse.

The HortiTruck is made of rust-resistant steel and ABS plastic elements. The product is electrically powered and the driver steers the vehicle in a standing position up to a maximum speed of 10 km/h.

The vehicle is equipped with a battery level indicator. Furthermore, the Hortitruck is standard equipped with a towbar for folding triangles, but this can be adjusted according to the customer's wishes.

Hortimat customizing work

Hortimat can design the offered machine to exact the customer requirements. Optionally we constructively adjust the machine or we install new operating systems. We also deliver tailor made solutions in the form of logistic conveyor belt systems and we think along with the customer for custom made solutions.

Why Hortimat

- + Adapting / modifying of used machines to desired specifications of the customer
- + Applying of new 2023 operating systems on used machines
- + New Hortimat range of products
- + Service and warranty by own technical specialists
- + Solid revision; guarantees a long lifetime
- + Individual advice about logistics matters, such as: grading machines, processing areas
