The Stefix 73 gives you a perfect sweeping and suction machine which is suitable for sweeping soft and uneven substrates such as cultivation floors or outside areas. The machine has been specially designed for growers who cultivate on ground cover or film. This machine is also extremely suited for sweeping up fine dust particles. The large filter surface area together with the large suction capacity mean that any job can be tackled. The simple controls and the large removable dirt tray on wheels ensure that emptying the dirt tray is lightweight and easy.

Advantages:

- No tire tracks
- Dust-free sweeping
- Large dirt tray
- Also sweeps the corners clean

Hortimat customizing work

Hortimat can design the offered machine to exact the customer requirements. Optionally we constructively adjust the machine or we install new operating systems. We also deliver tailor made solutions in the form of logistic conveyor belt systems and we think along with the customer for custom made solutions.

Why Hortimat

- + Adapting / modifying of used machines to desired specifications of the customer
- + Applying of new 2023 operating systems on used machines
- + New Hortimat range of products
- + Service and warranty by own technical specialists
- + Solid revision; guarantees a long lifetime
- + Individual advice about logistics matters, such as: grading machines, processing areas
