Weight	65 kg
Length	615 mm
Width	676 mm
Height	1855 mm
Power supply	230 V, 1 phase, 50 Hz

How it works:

This bucket filling machine is a semi-automatic bucket filler.

The machines dispenses water en are equipped with a dosing unit for adding chrysal.

The amount of water and chrysal are separately adjustable, so that each product group gets the perfect amount of liters and chrysal. When the filled bucket is removed, the platform rises up and the bucket filler automatically fills another bucket.

Hortimat customizing work

Hortimat can design the offered machine to exact the customer requirements. Optionally we constructively adjust the machine or we install new operating systems. We also deliver tailor made solutions in the form of logistic conveyor belt systems and we think along with the customer for custom made solutions.

Why Hortimat

- + Adapting / modifying of used machines to desired specifications of the customer
- + Applying of new 2023 operating systems on used machines
- + New Hortimat range of products
- + Service and warranty by own technical specialists
- + Solid revision; guarantees a long lifetime
- + Individual advice about logistics matters, such as: grading machines, processing areas
