Hortimat - Vlotlaan 192, 2681
TV Monster, The Netherlands

T +31(0)174 38 71 10 E info@hortimat.com
W www.hortimat.nl

Liter counter	Included
Supply conveyor belt	Various lengths, ask for the possibilities
Discharge conveyor	Various lengths, ask for the possibilities
Length	Depends on model
Width	800 mm
Height	1640 mm
Power supply	400 V 50/60 Hz

How it works:

The stacks of buckets are manually placed on conveyor belts. Then the entire stack is lifted, after which the bottom bucket is always pushed off the stack. The pushed-off bucket is filled with water and possibly with chrysal. The buckets are then placed on a conveyor belt, after which the flowers are simply placed in the buckets.

Hortimat customizing work

Hortimat can design the offered machine to exact the customer requirements. Optionally we constructively adjust the machine or we install new operating systems. We also deliver tailor made solutions in the form of logistic conveyor belt systems and we think along with the customer for custom made solutions.

Why Hortimat

- + Adapting / modifying of used machines to desired specifications of the customer
- + Applying of new 2023 operating systems on used machines
- + New Hortimat range of products
- + Service and warranty by own technical specialists
- + Solid revision; guarantees a long lifetime
- + Individual advice about logistics matters, such as: grading machines, processing areas
