Roller conveyor	Included
Length	2400 mm

These harvesting trolleys make it easier to harvest vine tomatoes. For example, there is enough space for the boxes, the trolleys are easy to connect and very agile due to the center wheels. The upper rack is also adjustable in height. In addition to the conveniences that this cart offers, it is also very solid and durable built, for example, they consist of a powder-coated frame and galvanized push handles.

Hortimat customizing work

Hortimat can design the offered machine to exact the customer requirements. Optionally we constructively adjust the machine or we install new operating systems. We also deliver tailor made solutions in the form of logistic conveyor belt systems and we think along with the customer for custom made solutions.

Why Hortimat

- + Adapting / modifying of used machines to desired specifications of the customer
- + Applying of new 2023 operating systems on used machines
- + New Hortimat range of products
- + Service and warranty by own technical specialists
- + Solid revision; guarantees a long lifetime
- + Individual advice about logistics matters, such as: grading machines, processing areas
